

Thai Coconut Restaurant

Royal Thai Cuisine

WELCOME TO THE THAI COCONUT YOUR DESTINATION FOR A TRUE THAI CUISINE

Thai cuisine has a strong influence from the Chinese and Indian cultures. Thai cuisine is prepared using tantalizing combinations of herbs and spices. This makes for a magnificent combination of tastes and aroma. Although many feel that Thai cuisine is simply hot or spicy, there is much more to it than that. While some dishes are hot and spicy using peppers and chilies, most of the dishes here at the Thai Coconut are quite mild with no spiciness at all. Our special recipes and combination of ingredients are just a part of a mending of flavors to bring an enjoyable and pleasurable sensation of taste that lingers long after the meal is over.

Thai cuisine is not only delicious but is also well known for its healthy aspects. Many of the herbs and spices used in Thai cuisine are also used in medicines and health remedies in the Thai culture. While some in the Thai culture believe a healthy meal consists of rice, meat, poultry or seafood, others believe a vegetarian meal is the path to a healthy diet. At the Thai Coconut, we have chosen what we feel are the most delicious and popular Thai dishes to satisfy whichever tastes you might have.

The Thai Coconut offers you the widest selection of Thai cuisine in the area, with over 200 items to choose from. We now invited you to experience the authentic, aromatic, and altogether delicious taste of Thai cuisine that is exclusive only to the "Thai Coconut."

"THAI IT, YOU'LL LIKE IT!"
